Volunteering
Software Development Consultant   **Jan. 2022 – March 2022**
- Excellent stakeholders' engagement
- Applied IT and software development knowledge to resolve translation issue that had existed for several years.
- Engaged web hosting knowledge and website translation knowledge to resolve website translation issue.

Education:

BSc, Computing, and Information Technologies   **University of Derby**
Database designs, network management and security, entity relationship models, design patterns, relational and non-relational databases, programming (PHP, Java, JavaScript, and SQL), creating quality products and secure applications, computing technologies in society, software engineering, Agile and Scrum etc.

Projects:

JobPlus App

This is a search interface that allows users to input their desired job title, location, and other relevant information to search for job postings that match their criteria. The search engine also includes filters and sorting options to further refine the search results.
Technologies Used: JavaScript, Tailwind CSS, Material-UI, SASS, Flexbox, and Grid for styling and layout, SQL, JWT, Node.
